

## THE “RED CARPET GLOW”

### Why are Carbon Facials also known as the “Hollywood Facial”?

Many clients notice an immediate glow and revitalisation effect after their first treatment, which is why treatments are often referred to as the "Hollywood Facial" and known for achieving that coveted “red carpet glow.”

Services are ideal for an immediate skin health boost before a big event and are perfect for those seeking quick, comfortable and noticeable results.

More significant improvements, such as a reduction in fine lines and wrinkles, are usually seen after a series of 4-6 treatments, and will start to become visible from 6-12 weeks after your first treatment.

## ENJOY A BRIGHTER, YOUNGER LOOKING COMPLEXION

**Carbon Facials leave your skin with the appearance of looking smoother, clearer, and more youthful.** Treatments work to refine a wide range of skin concerns that can increase the appearance of visible ageing.

With each session, you'll notice improved skin texture, reduced imperfections, and a radiant glow that enhances your natural beauty.

## UNLOCK THE ULTIMATE GLOW WITH CARBON FACIALS

**CARBON FACIALS ARE AN ADVANCED SKIN REJUVENATION TREATMENT, ALSO KNOWN AS THE "CHINA DOLL FACIAL" OR "HOLLYWOOD FACIAL"**

By combining cutting-edge Nd:YAG laser technology with a laser energy attracting carbon cream, treatments are ideal to:

- Minimise the appearance of fine lines and wrinkles
- Enhance complexion luminosity and glow
- Refine the appearance of enlarged pores
- Help clear congested and oil prone skin
- Refine the appearance of uneven skin texture
- Improve appearance of uneven skin tone

# Carbon Facials

FOR REJUVENATED, REVITALISED,  
AND HEALTHIER LOOKING SKIN

immediate results | radiant glow | zero downtime

# FREQUENTLY ASKED QUESTIONS

## How do Carbon Facial treatments work?

Treatments utilise a Q-Switched Nd:YAG laser and liquid carbon cream which is applied to the treatment area. When the laser passes over the liquid carbon the energy is absorbed, shattering the carbon into tiny particles. The shattered carbon is then cleansed off the treatment area, and superficial epidermal cells, contaminants, impurities and oil are removed with it. This process delivers instant exfoliation, deep cleansing and rejuvenation.

## How many treatments will I need?

The number of treatments you need will depend on your specific skin goals and concerns. Your clinician will discuss a treatment program based on your individual skin goals as part of your skin consultation. Generally, a series of 4-6 treatments is recommended for optimal results, spaced 2-4 weeks apart.

## How do treatments feel?

The sensation of a Carbon Facial treatment is comfortable, and described as a warm tingling or light flicking on the skin.

## Is there any downtime?

Clients can immediately resume their daily activities post treatment. Some mild redness may be experienced, which usually subsides within a few hours.

## What results can I expect with Carbon Facials?

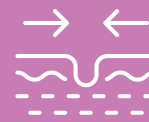

Carbon Facials are an ideal treatment for clients wanting to achieve a wide variety of age management and skin rejuvenation goals, including to:

MINIMISE THE  
APPEARANCE  
OF FINE LINES  
AND WRINKLES

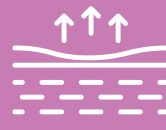

ENHANCE  
COMPLEXION  
LUMINOSITY  
AND GLOW

REFINE THE  
APPEARANCE  
OF ENLARGED  
PORES

HELP CLEAR  
CONGESTED  
AND OIL  
PRONE SKIN

REFINE THE  
APPEARANCE  
OF UNEVEN  
SKIN TEXTURE

IMPROVE  
APPEARANCE  
OF UNEVEN  
SKIN TONE

## WHAT SHOULD I EXPECT DURING A CARBON FACIAL TREATMENT?

The targeted area is thoroughly cleansed to clean and prime the surface prior to treatment

Carbon cream is applied to the treatment area and allowed time to absorb into the pores

Laser energy is used to shatter the carbon crème, along with impurities and oil in the skin

Shattered carbon plus superficial epidermal cells are cleansed off and removed, revealing revitalised skin
